

## **Cold Weather Flying Kit**

Winter flying can be lots of fun if you are prepared. Here are a few equipment recommendations for winter flying at Stillwell and slope soaring in the local area to get you started setting up your cold weather flying kit. This not a complete list of what equipment you'll need.

### ***Winter Golf Gloves***

These have soft golf leather palms which make it very easy to feel the control sticks. The backs are insulated. You can get these at any of the local golf stores or golf course pro shops.

### ***Hot Hands Heat Packs or Similar***

#### **Hand Warmer Size**

You can get these individually at home depot and lots of outdoor places. One in the palm of each hand keeps hands nice and warm and helps to warm the rest of you. They are good for hours.

#### **Body Warmer Size**

If you feel you need it. <https://www.jensonusa.com/Warmers-Sleeves>

### ***Head and Neck Protection***

#### **Neck Gaiter**

Neck protection. Better than a scarf. <https://www.jensonusa.com/Surly-Merino-Neck-Gaiter>

#### **Balaclava**

Head and neck protection.
